TO: ALAEA MEMBERS - REX

RE: REX EBA EXTENSION & VARIATION VOTE

The Regional Express Aircraft Engineers Agreement 2005 (as varied 2008) vote has resulted in 63% of engineers who voted accepting the EBA extension and variation.

The participation level in the vote was very good with an 87% voter turnout being achieved.

The ALAEA and Rex have now signed the relevant documents and an application is being made to the Australian Industrial Relations Commission (AIRC) to get Commission approval for the extension and variation of the EBA.

After the documentation is lodged with the AIRC, it is expected a hearing will be convened in the first half of January 2009.

Once there is Commission approval, this will bring the new Agreement into force and allow for pay adjustments flowing from the EBA to be implemented.

Further advice will be issued and members advised when the EBA is approved by the Commission.

NOEL SPEERS
