**\*\*\*\*\*REGULATORY REVIEW\*\*\*\*\***

**TO: ALL ALAEA MEMBERS**

**RE: CASA INDUSTRY ROADSHOWS**

---

Members are advised that CASA will shortly be conducting nationwide industry roadshows to explain the proposed new regulatory changes to the aviation community.

It is of vital importance that members avail themselves of every opportunity to attend these briefings to gain the knowledge first-hand and involve themselves in direct consultation with CASA as these regulations are nearing completion.

These regulations have been under review for a number of years now and the present direction is towards the EASA model. (More information may be obtained at <http://www.casa.gov.au/newrules/maint/index.htm>)

The ALAEA have been involved in this process and we have formed the view that moving toward the EASA system will give us the outcome the ALAEA has sought from the outset of this reform.

The timetable for the meetings is set out below:

# **Maintenance Regulations Project Industry Presentations**
